

### PRODUCT DETAILS

## WHICH TOSHIBA DEVICES ARE SUPPORTED?

e-BRIDGE® Global Print has an embedded application component that runs as a digitally signed application on the Toshiba e-BRIDGE® Next (eBN) platform; therefore, all Toshiba models supporting eBN platform support e-BRIDGE® Global Print. There is no special enablement kit or extra hardware needed – only a license for the app on the device. System firmware SYS1700 or higher is required. Please see the entire list below.

Other OEM models are currently not supported.
