

Simple Yet Sophisticated Management of Interactive Media Experiences

Experience Manager is a complete scalable platform for managing networked interactive media experiences. It provides a centralized solution capable of delivering targeted content by time, location, and demographic to ensure delivery across multiple touch points.

Experience Manager can be deployed in many ways from simple play loops with occasional content changes, to frequently changed content that is hyper-targeted, all via a network. This cloud-based solution allows for sophisticated planning, distribution and management of digital content across a network of displays. With its open architecture, custom solutions are easy and users can create, manage and measure highly-targeted digital signage networks with minimal time, resources or budget.

Benefits of Experience Manager

- ✕ Drag and drop convenience
- ✕ Customizable dashboards
- ✕ Rich interactive reports
- ✕ Full visibility and control of network
- ✕ On the fly adjustments

Experience Manager offers customers a breadth of capabilities to easily deliver and manage communications at a low monthly cost as well as comprehensive or a la carte service plans that ensure a robust and secure operating system with maximum uptime.

Let Toshiba take your business beyond great to exceptional with dynamic digital signage solutions.
